Summary

I'm a Full stack Software Engineer who loves to build experiences that help people do what they couldn't do before. I love using technology to enable others and feel most fulfilled when using my skills to do so.

Skills

Experience

- **Software Engineer – Full Stack** | [U World Inc.](#) | Nov 2020 – Jul 2021
 - Created generic cache layer to store the API data for better performance.
 - Developed generic shared components to reuse across the application which reduces most of the development time for the peers.
 - Reduced the bug backlog by 43% in 2 months.
 - Awarded Employee of the Month twice for performing great work.
 - Mentored the multiple interns on technologies like Angular framework, Dot Net.
- **Software Engineer – Full Stack** | [Keka Technologies Pvt Ltd](#) | Dec 2018 – Oct 2020
 - Experienced in building an application from scratch with the startup experience in a SAAS product with a large-scale user base.
 - Designed and implemented daily email digest and dynamic report generator which played key role in sales growth of the product.
 - Worked closely with customer support to respond quickly to user issues, permanently solve them, and reduce the turnaround time of fixes.
 - Created documentation to help business users understand the purpose and definition of every database column in the system.

Education

- **Arkansas State University** | Sep 2021 – April 2023 (expected)
Master of Science in Computer Science
- **Koneru Lakshmaiah University** | India | Mar 2019
Bachelor of Science in Electronics and Communication Engineering
GPA: 3.7/4

Achievements

- Achieved 2 bronze and 1 silver medals in Hacker rank coding competition. [hackerrank.com/anandgalla](https://www.hackerrank.com/anandgalla)
- Solved around 200 problems in different coding websites like CodeChef, HackerRank, LeetCode etc.
- Awarded Employee of the month within 3 months joining the company, owing to exceptional software designing and support to the team.

Personal Projects

● Galli List | anand-galla.github.io/galli-list/

Technologies Used: Angular, HTML, CSS, Bootstrap, Firebase, Document DB
